REGULATION, SAFETY & THE RAIL INDUSTRY

APRIL 29 – MAY 3, 2019
WASHINGTON DC AREA
PROGRAM OVERVIEW:
A stand-alone module of the established and highly respected Railway Management Certificate Program, this residential five-day program covers the critical topics of safety and regulation. We visit Washington, DC to meet with AAR, STB, FRA and several other organizations to learn how they set and oversee rules, standards etc. We also travel to see vital aspects of railway operations such as port integration and intensive passenger service management.

WHO SHOULD ATTEND:
- Railroad superintendents, trainmasters, and middle managers from engineering and support functions with capacity to perform at higher levels
- Managers/leaders requiring learning opportunity beyond their experience who have had limited business administration education
- Shippers needing to learn about the business of railroading to build better relationships to improve performance
- Suppliers to the rail industry wishing to learn about the business of railroading to improve communication and understanding

KEY LEARNING OUTCOMES:
By the end of the program, participants will have:

- Learned how to create and maintain a safety culture
- Gained a better understanding of the importance of railroad security
- Knowledge of the role of Federal Government and others in safety, regulation, and policy
- Freight railroad economics, data analytics and technology development, standards, etc.
- Explore labor relations in the modern rail industry
- Understand how a major port works and it’s rail interfaces
- Discuss ways forward for the future North American rail industry
**PRICE & REGISTRATION:**

$5,000 - full tuition
Price includes instructional materials, faculty and staff support, overnight rooms, and daily breakfast and lunch. Transportation to and from the program, and dinner most nights are not included.

Discounts are also available for multiple participants from the same company.

To utilize the best in adult learning practices, class size will be limited to twenty-five participants.

---
