

Railway Safety & Regulation

Railway Management Seminar

November 12-16, 2018 - Washington, DC & Newark, NJ

Seminar Introduction:

A stand-alone module of the established and highly respected Railway Management Certificate Program, this residential five-day program covers the critical topics of safety and regulation. We visit Washington, DC to meet with AAR, STB, FRA and several other organizations to learn how they set and oversee rules, standards etc. We then travel north to see unique aspects of railway operations such as port integration and intensive passenger service management.

Key Content:

- Creating and maintaining a safety culture
- The role of Federal Government in safety and commercial issues
- Freight railroad economics, data management and the AAR
- Visit and travel on Amtrak's NE Corridor service
- Experience a major rail connected port operations for mixed traffic
- Explore labor relations in the modern rail industry
- Discuss ways forward for the future North American rail industry

Who Should Attend:

- Railroad middle managers with capability to perform at higher levels
- Managers/leaders requiring learning opportunity beyond their experience
- Shippers needing to learn about and understand how railroads operate
- Suppliers to the rail industry wishing to learn about the business

Price & Registration:

- Register on-line at www.raileducation.com
- Additional information available from Nick Little at 517.353.5663
- Full Tuition: \$5,000 (includes materials, lodging, meals, transportation to site visits, and certificate of participation)
