WEST MICHIGAN SUPPLY CHAIN MANAGEMENT CERTIFICATE SERIES

#1 in Supply Chain Management Education

JANUARY 16, 2020 - DECEMBER 10, 2020

AMWAY LEARNING CENTER ADA, MICHIGAN

Executive Development Programs
Broad College of Business
MICHIGAN STATE UNIVERSITY
About the Program

The program’s structure is based upon the graduate level Supply Chain Management concentration in The Eli Broad College of Business at Michigan State University. The Broad College’s Supply Chain Management Program is consistently ranked as one of the best in the country.

The seminar will be offered in two 15-week modules: Module One delves into marketing and supply chain management concepts, and Module Two concentrates on supply chain management processes.

Program content will be delivered through lectures, readings, class discussion, and interactive simulations conducted by full-time Broad College faculty. Supply chain management case studies and applications will be liberally used throughout both modules.

Who Should Attend

Executives and managers who must achieve enterprise success through logistics and supply chain management excellence in the highly competitive global environment. Participants will represent the functional areas of procurement, manufacturing, materials management, logistics and customer service and the major industrial and service segments in western Michigan.

A project will tie both modules together. It will be scoped/developed during the first module; data will be refined and analyzed in between modules; and results will be presented and reviewed at the conclusion of the second module.

The project review criteria include:

1. The project represents a potential opportunity that is not currently under investigation by the firm;

2. The participant illustrates how the project will utilize topics, concepts, and tools within the scope of the Supply Chain Management Certificate Series; and

3. Successful completion of the project presents a potential opportunity for the company to reduce costs, increase revenues, increase quality and/or reduce cycle times.

In the past, results of the project have provided a tangible, net benefit back to the sponsoring company, making the investment of time and resources in the program well worth the effort.

Program Objectives

• Provide a thorough knowledge and understanding of world-class supply chain management practices and their role in developing and maintaining competitive advantage;

• Provide experience in viewing supply chain situations from the perspective of suppliers to and customers of manufacturers and service providers;

• Provide an introduction to the tools and applications used in supply chain process evaluation and re-engineering;

• Provide experience and feedback in the use of both qualitative and quantitative data analysis; and

• Provide a knowledge baseline documenting supply chain management best practices.
CERTIFICATE SERIES FACULTY

Yemisi Bolumole
is Associate Professor of Supply Chain Management in the Broad College at Michigan State University. Prior to joining MSU, she was an Associate Professor of Logistics at the University of North Florida, where she served as the Director of the Transportation and Logistics Flagship Program. Her primary teaching interests include logistics systems design/analysis and supply chain management.

David J. Closs
is the John H. McConnell Chaired Professor of Business Administration in the Broad College at Michigan State University and co-director of the certificate series. He has given extensive presentations discussing the application of information systems technology to logistics management and logistics strategy. Dr. Closs has published a variety of articles and co-authored a textbook on logistics management.

William A. Donohue
is a Distinguished Professor of Communication in the College of Communication Arts and Sciences at Michigan State University. He has published seven books and over 100 publications and conference papers in the areas of conflict, communication, negotiation and mediation. His most recent book, Card Talk: Winning Communication Games, focuses on how communicators can use messages more strategically to accomplish their goals. He is also the co-founder of the Sales Communication Specialization at Michigan State University.

Jennifer Dunn
Is a faculty member in the Department of Management in the Broad College at Michigan State University. Her research is focused on negotiation, trust, reputation, and ethical decision making. Dr. Dunn has won numerous teaching awards from our MBA programs.

David J. Frayer
is the Assistant Dean for Executive Education & Professional Development in the Broad College at Michigan State University. Dr. Frayer is co-author of Best Practice Model for ECR Alliances and has published articles on global procurement and logistics strategy.

Stanley E. Griffis
is the John H. McConnell Professor of Business Administration and a Professor of Logistics in the Department of Supply Chain Management in the Broad College at Michigan State University. Prior to joining the faculty, he taught at the Air Force Institute of Technology in Dayton, Ohio. His primary teaching interests include logistics and supply chain management.

Justin Jagger
is an Academic Specialist in the Department of Supply Chain Management in the Broad College at Michigan State University. He acts as a primary active learning facilitator for applications including supply chain simulations, business games and network optimization. Prior to joining in academia, Justin worked as an R&D specialist in the biologics industry.

Steven A. Melnyk
is Professor of Operations Management in the Broad College at Michigan State University. His research interests include supply chain management, process management and control, metrics/system measurement, and new product/process design. Dr. Melnyk is lead author of over 14 books and numerous articles.
**CERTIFICATE SERIES FACULTY**

**Jason Miller**
is Assistant Professor of Logistics in the Broad College at Michigan State University. His primary research stream examines firms’ logistics operations, with an emphasis on studying motor carrier safety. He also undertakes research developing and disseminating multivariate statistical techniques.

**Anand Nair**
is a Professor of Operations and Supply Chain Management in the Broad College at Michigan State University. His research focuses on issues related to learning, adaptation, self-organization, complexity, and networks within organizational contexts.

**Ayalla Ruvio**
is Assistant Professor of Marketing in the Broad College at Michigan State University and an applied consumer behavior researcher who focuses on issues such as consumers’ decision making regarding new products, identity and consumption, and cross-cultural consumer behavior.

**Cheri Speier-Pero**
is Professor of Information Systems in the Broad College at Michigan State University. Dr. Speier’s research interests include human resource issues associated with information systems, and individual and group acceptance and use of technology. Her work has been published in many academic and professional journals.

**Ken Szymusiak**
is Managing Director of the Burgess Institute for Entrepreneurship & Innovation in the Broad College at Michigan State University, where he helps to develop and support student entrepreneurship. He teaches in the areas of entrepreneurial mindset, small business creation and management, and business model development. In addition, he serves as Director of the Hive, an innovative student “idea laboratory” where he mentors students in moving business concepts from idea to market.

**Judith M. Whipple**
is Professor of Supply Chain Management in the Broad College at Michigan State University and co-director of the certificate series. Previously, she was an Assistant Professor at Western Michigan University in Food Marketing and Integrated Supply Management. Dr. Whipple’s research focuses on alliances and supply chain integration. She has published various articles as well as presented at industry conferences and executive development programs.

**Jeremy Wilson**
is Professor in the School of Criminal Justice at Michigan State University, where he also serves as the director of the Center for Anti-Counterfeiting and Product Protection (A-CAPP) and the Program on Police Consolidation and Shared Services (PCASS). He has worked extensively to understand the supply chain implications of counterfeiting and product protection.
SEMINAR TIMING AND OUTLINE – MODULE I

Marketing and Supply Chain Management Concepts January 16 – April 30, 2020 – Thursdays, 2:00-5:30 p.m.*

Jan. 16 **Supply Chain Overview & Introduction**
- Definition and scope
- Role of supply chain in competitive strategy
- Examples of supply chain success
- Project introduction

Jan. 23 **Mega Trends & Supply Chain Implications**
- Key trends impacting supply chain practice
- Future perspectives applied to your business

Jan. 30 **Marketing & Customer Strategy**
- Marketing problem solving
- Market analysis
- Marketing orientation and process
- Planning marketing programs

Feb. 6 **Market Segmentation, Targeting & Positioning**
- Levels of segmentation
- Bases for segmentation
- Differentiating and positioning the market offering

Feb. 13 **Open Innovation & New Product Development**
- The need for firms to innovate
- A general overview of the new product development process
- The importance and difficulty of choosing projects and several methods to choose
- A brief overview of the role of the supply chain in new product development

Feb. 20 **Procurement I**
- Procurement strategy
- Integrating procurement with supply chain strategy
- New product/process/service development
- Customer order fulfillment
- After-sale service/support

Feb. 27 **Procurement II**
- Supplier integration into product/process/service development
- Drivers/results and barriers
- Supplier integration process
- Purchasing evolution and future directions

Mar. 5 **Offense & Defense in the Supply Chain – Resilience & Interdiction**
- Discuss offensive and defensive strategies for supply chain
- Define resilience & interdiction

Mar. 12 **Manufacturing & Operations Strategy**
- Comparison of manufacturing strategies
- Make-to-stock
- Configure-to-order and Make-to-order
- Lean versus flexible manufacturing
- Rationalizing production scheduling with logistics
- Design for manufacturability
- Design for flexibility

Mar. 19 **Forecasting & Order Management**
- Components and objectives
- Process and techniques
- Implementation and evaluation
- Performance cycle
- Supply chain responsiveness

Mar. 26 **Supply Chain Simulation**
- Apply supply chain principles in a two-round, hands-on exercise
- Understand dynamics of anticipatory and response-based supply chains

Apr. 9 **Inventory Management & Planning Technology**
- Inventory management techniques, setting inventory parameters
- Tactical information interchange
- Inventory cost and service tradeoffs
- Supply chain information technology architecture
- Enterprise resource planning and scheduling
- Radio Frequency Identification

Apr. 16 **Building & Selling a Business Case**
- Developing a value proposition
- Understanding the audience
- Communicating effectively

Apr. 23 & Apr. 30 **Project Presentations I & II**

* A few of these dates are subject to change to Tuesdays or Wednesdays with notification at the beginning of each module.
SEMINAR TIMING AND OUTLINE – MODULE II

Supply Chain Management Processes August 27 – December 6, 2020 – Thursdays, 2:00-5:30 p.m.*

Aug. 27  Supply Chain Security & Compliance
- Dimensions of business and supply chain risk
- Evolving role of supply chain professionals
- Service v. product supply chains
- Compliance requirements

Sept. 3  Anti-Counterfeiting & Brand Protection
- Counterfeiting risk in the supply chain
- Proactive brand protection
- Developing strategies & capabilities

Sept. 10 The Electronic Marketplace & Business Analytics
- Electronic marketplaces
- Logistics impact on customer relationship management systems (CRM)

Sept. 17 Developing Environmentally Friendly Supply Chains
- Understanding the notion of value and waste (both strategic and generic)
- Relating waste to processes
- Waste as a residual
- Metrics and waste
- Identifying waste within the supply chain

Sept. 24 Warehousing & Material Handling
- Changing role of warehousing
- General warehousing alternatives
- Cost elements
- Facility size, layout and design
- Labor competencies and measurements
- Materials handling equipment
- Warehouse management systems (WMS)

Oct. 1 Transportation Management
- Changing transportation environment
- Lane design and operations
- Integrated transportation decision framework
- Mode/carrier selection
- Transportation management systems (TMS)

Oct. 8 Supply Chain Process Integration
- Systems analysis
- Manufacturing/distribution integration
- Facility network integration
- Total cost system integration

Oct. 15 Relationship Management & Outsourcing
- Rationale for outsourcing
- Relationship development process
- Managing long-term relationships
- Elements of successful relationships
- Relationship examples

Oct. 22 Negotiation
- Common mistakes in negotiation
- Integrative versus distributive negotiations
- The role of planning in negotiation
- Awareness of dirty tricks in negotiation

Oct. 29 Supply Chain Cost & Financial Concepts
- Activity based costing
- Balance sheet and income statement analysis
- Inventory impact
- Asset utilization

Nov. 5 Communication & Personal Development
- Understanding audiences and messages
- Developing communication strategies
- Developing your professional capabilities

Nov. 12 SCODE I & II
- Simulation of global supply chain operations
- Understand the impact of uncertainty in the supply chain

Dec. 3 Project Presentations I & II
- & Dec. 10

*A few of these dates are subject to change to Tuesdays or Wednesdays with notification at the beginning of each module.*
